

AirVenture 2025 Seaplane Base Forum - Navigating Weather for Safer Flights

This presentation equips GA pilots with key strategies for safe, informed weather decision-making. We'll cover how success starts on the ground with effective pre-flight planning and explore best practices for self-briefing using support tools. We'll also discuss understanding personal limitations and creating a tailored weather checklist. Additionally, we'll introduce 1800WXBrief.com, showcasing its features for enhanced briefings. Join us for practical insights designed to help general aviation pilots fly with confidence and safety.

WINGS/AMT credit available!

To receive WINGS/AMT credit fill out attendance sheet available at the Forum entrance.
