

Psychological Factors and Weather Decision-making

Weather-related accidents continue to result in the highest annual General Aviation (GA) fatalities. In many of these accidents, human error is cited as a contributing factor. Additionally, psychological factors such as cognitive and affective factors also play a role in the pilot's decision-making. Attend this session and learn about these factors and how they may influence your decision-making. Additionally, we will review tools and techniques available to mitigate these psychological factors.

WINGS/AMT credit available!

To receive WINGS credit fill out attendance sheet available at the Forum entrance.

The **Central Florida Aerospace Academy** is located near the West entrance of the Sun-n-Fun grounds off of Medulla Road, through the main gate #134 onto the James C Ray Drive. Building across from Museum.

From admission gates, turn left down James C Ray Drive towards CFAA, blue roofed building on left
