

Information Processing - How the Brain Works

This two hour event, coordinated by the Albany FAASTeam and presented by FAASTeam Representative, Ningyun Cai. It will contain information of interest to all pilots.

During this months Seminar, we will present an interesting discussion about how the brain works to process information. We will discuss visual deficiencies, illusions, and false perceptions; in an attempt to determine what is real and what is not while flying our aircraft.

This two hour event will be held at Av Flight, located at the southeast side of the airport below the beacon and tower. This seminar will be held in the 1st floor Conference Room at Av Flight at the Plattsburgh Airport. Street address: 1 Alabama Street, Plattsburgh, NY. No landing and facility fees for aircraft <12,500lb.
