

VFR Workshop

How Confident are you with Uncontrolled Fields? Would you like to expand your experience in an enriching and supportive environment? Here is your chance to practice in a workshop focused on flight operations at Non-Towered Airports.

In cooperation with PilotEdge www.PilotEdge.net , pilots will get to simulate a "20 Minute Hop" flying to lunch between Stevens Point and Iola Central in a networked environment with other participating pilots, seeing the aircraft participating and hearing the actual communications from other pilots.

We will focus on: Pattern Entries, Best runways based on winds, Communications, "See and Avoid" & Using your EFB/ADS-B/Traffic guidance tools

Increase your skills and confidence in this most critical area of flight operations. Proficient Pilots and Rusty Pilots (Flight Instructors provided) are welcome to join us for this immersive, educational, and fun workshop at the EAA PPC in Oshkosh.
