

Madison IMC Club

We will start by sharing a video that sets-up our scenario, "Full Circle at Chatham" (Topic: In theory, it's a binary decision: You complete the approach to a landing or you go missed.

In practice, however, there are times when commencing the missed puts you in a position where you could just come around the pattern and land. But when is that smart, and when is that just asking for trouble?) Analyze the situation and compare your ADM with the video analysis.)

This IMC Meeting is led by **Peter Jensen**, Certified Flight Instructor and Professional Pilot. We will be discussing different course of action through input all of the attendees. Through our discussion you will learn that scenarios can be handled differently.

Follow signs to Dane County Regional Airport. Wisconsin Aviation is located at 3606 Corbin Ct. We will meet in the Main Conference Room.
