

FAASTeam presents:

Mountain Flying

Weather is among the most important elements in the go/no go decision for flying. You can't have too much weather education.

This seminar will delve into the interesting weather conditions specific to mountainous terrain. Weather is among the most important elements in the go/no go decision for flying.

Directions: From I-25 and Arapahoe Rd., proceed east to Peoria St. and turn right. At the entrance to Centennial Airport (where Peoria turns into Bronco's Pkwy), turn right and continue around the control tower. Just before the mailboxes on your left and just after the yellow caution, turn right into the alley. The front door is at the end of that alley in the Arapahoe Aero building. The classroom is upstairs to the left.
