

Local Weather Patterns with Mike Buresh of Action News Jax

Holladay Aviation and The Craig Airport Pilots Association welcome Action News Jacksonville Chief Meteorologist Mike Buresh, who will once again educate and entertain as he explains the weather patterns in our local area. This is a great opportunity to better understand how you should be looking at our weather, and would be of great benefit for new and experienced pilots alike.

The event is expected to last about 90 minutes, and questions/answers will certainly be entertained.

From St. John's Bluff Road, enter the Craig Airport main entrance, straight down the main road to the end, conference room building is on the right.

A message from the National FAASTeam Manager
