

EAA Chapter 1674 VMC/IMC Monthly Safety Meeting

The meeting starts at 11:00 after the monthly EAA meeting. This month's VMC presentation will examine a landing gear problem encountered on the first flight after an annual inspection. The IMC presentation will explore a low-oil-pressure emergency during an IFR flight when the pilot has limited options. Both scenarios will focus on recognizing developing problems, making sound decisions, and reducing risk.

Meeting will be at the FBO (Right Rudder Aviation) on the SE Corner of the Inverness Airport (INF). Both Ramp & Auto Parking are available.
