

MSY Pilot/Air Traffic Controller Forum - Meet the Voices Behind the Mic

Due to limited space pre-registration is required.

The Pilot/Controller Forum is a unique opportunity for pilots to meet some of the controllers they hear on the radio, learn more about local ATC procedures and gain valuable insight into how the Tower and Approach operate. This face to face event will help strengthen communication, build trust, and foster collaboration between pilots and controllers - making the skies safer and more connected for everyone.

Attendees will learn about:

Air Traffic Control Procedures in and around the New Orleans Class Bravo Airspace

ATC expectations and why proper phraseology matters.
